at Transpek industry, Baroda and Mr. Vishal Shah (Executive Manager, Production Department and Alumni 2011) working at Atul Limited, Ankleshwar had delivered a talk and shared their extensive experience in the field of process engineering, Environmental aspects. They has multi-disciplinary design and engineering company to provide concept to company design, production and engineering services to the various aromatics and gas hydrocarbons chemical process industry. They initiated the lecture session with overview of opportunities for chemical engineering and more emphasize to know application of theoretical knowledge. The key point of discussion was role of chemical engineers in various industries. The other points of discussion are project work, safety precautions, trainings, project life cycle and many more. The sessions end up with briefing about their company. Our Head of the department, Dr. Kaushik Nath and other faculty members were also present to encourage students. Most importantly, session was interactive and all students had learnt basic things. The lecture has proven to be a very impressing and informative for the students.
